There weren't actually any cigars on any of his many covers, but most had pictures or writing related to cigars and/or their production, sale, or utilization. As this was Part I of what we hope will be an extensive sequence, he first explained to us in some detail what a cigar is, of what it is composed, how it is assembled, and what some people do with them, with a brief history of evolution of the craft. It was fine material, mostly from mid- to late 19th century.

Regular
Meeting

Minutes of October 9, 1981

Holiday Inn 2160 Euclid Avenue Cleveland, Ohio

After a congenial dinner at the restaurant in the hotel--guests and members reconvened in Parlor C for the regular meeting.

The meeting was called to order promptly at 8:00 PM by President Underwood with many guests and members present. The President welcomed the Akron Collectors Club members to the joint meeting with the Garfield-Perry Stamp Club.

Members present of the Collectors Club were introduced as well as those holding dual membership in both organizations.

Reading of the minutes of the previous meeting was summarily dispensed with by executive order and the fact that the Recording Secretary was absent on affairs of state.

Don Bianchi, Entertainment Co-Chairperson asseverated the assembled, astonished assemblage with his assertive assigned assesment with assiduous care the scheduled entertainment of the coming period.

A spirited auction was then called by Don Bianchi with the consumate skill of a professional and with superior results.

Introduced by Charles I. Ball was our speaker of the evening, Richard Graham. His talk was titled - "Civil War Potpourri" and the presentation was indeed scholarly and our speaker showed a thorough knowledge of his subject as well as of Civil War times, events and personages. It was a great talk, masterly presented, and well appreciated by all those present.

Entertainment: Mr. Ball introduced Mr. Allen, who tried to enlighten us on aspects of "Taxes on Stamps", a complex and changing situation. The first part of his talk was to cover the comparatively simpler cases wherein one dies and stamps might be part of the estate. Needless to say both the state and federal collectors are anxious to get a piece of the action. Among the specific advice -- Don't die before 1986. The IRS has the power to assess value, and Income tax is worse. We didn't quite get into the second, and more complicated part of the talk, mostly because the audience found the first part so interesting that they kept the speaker busy with questions and case studies.
